SUMMARY

A Software Developer that offers a unique combination of technical expertise and meticulous attention to detail. With a background in software engineering and hands-on experience, I possess a robust foundation in JavaScript, Python, and C. Proficient in Git, JIRA, and Agile methodologies, I contribute effectively to software development teams.

A collaborative team player, I excel in sharing and refining ideas to solve complex problems. My strong communication skills enable me to convey technical concepts to both technical and non-technical stakeholders. In essence, I am a dedicated Junior Software Developer passionate about technology and committed to excellence.
